

ANS Trustees of Nuclear

Urenco is proud to be an inaugural Trustee of Nuclear partner supporting the American Nuclear Society (ANS) in impactful programmes that improve nuclear literacy in schools, shape policies through parliamentary engagement and communicate to broaden public discourse.

More specifically, the partnership will fund the K-12 STEM outreach to put nuclear in curriculums; media training for the ANS Rapid Response Taskforce to provide clear communications about the value of nuclear; and facilitates discussions regarding nuclear policy issues with members of Congress and other key stakeholders.

ANS[®] Trustees of Nuclear

The ANS mission is to advance, foster, and spur the development and application of nuclear science, engineering, and technology to benefit society. It's vision is that nuclear technology is embraced for its vital contributions to improving peoples' lives and preserving our planet. ANS membership is open to all and consists of individuals from all walks of life including engineers, doctors, students, educators, scientists, soldiers, advocates, government employees, and others.

www.ans.org

“Urenco's membership dues support operating costs associated with the following ANS programs: ANS K-12 STEM programs, providing curricular resources, educator trainings, and nuclear professionals in the classroom; Rapid Response Task Force, engaging the public and media through ANS subject matter experts; and Nuclear Policy Leadership Programs connecting the nuclear community to policymakers and their staff.”

Daryl Rizzo

Director of Development, American Nuclear Society

Sustainability Spotlight

This project aligns with the Urenco sustainability strategy, our corporate values and selected UN sustainable development goals.

Environment & transition to net zero:

- increase understanding of the role of nuclear.
- influence policy through engagement at ANS-hosted Congressional and stakeholder events.

Education & skills:

- put nuclear in curriculums via K-12 STEM programs
- extend Navigating Nuclear curriculum to more locations.
- opportunity for 150 Urenco colleagues to become ANS members.

Community engagement:

- Urenco colleagues can get involved with volunteering, Richie workshops.
- present a balanced narrative through additional media and public communication.

UN Sustainable Development Goals:
